K-5 Report Card Supporting Document: Personal/Social Behaviors and Habits of Work

Using this Document:

This document provides specificity, connection to the Toolbox Curriculum, and behavioral exemplars for the ‘Personal/Social Behaviors’ section of the K-5 report card. It is intended to be a handy reference for conversation with families about student progress.

Social-Emotional Learning Core Domains:

This section lists the full definition of each core domain (an abbreviated and parent-friendly definition is printed on the K-5 report card)

Related Toolbox Tools:

This section lists the specific Toolbox Tools that target the corresponding social-emotional domain. Teachers can refer to the Toolbox Tools related to a child’s area of struggle or particular strength for teaching suggestions.

Possible Behavioral Descriptors:

This section provides specific examples of how these overarching domains may manifest in the classroom. These specific descriptors are a great jumping off point for a discussion of strength or weaknesses in parent conferences. Consider whether or not a child’s particular strength or area of struggle is seen across settings (classroom, yard, small-group, large-group).
